

care finder Western NSW

Client information

The care finder program helps older people get aged care support.

We help people who:

- Find aged care hard to understand
- Need help to get started
- Do not have family or friends to help them

Our care finders work with you and support you along the way.

How can care finder help?

A care finder can:

- Talk to My Aged Care for you
- Help book an aged care assessment
- Go with you to your assessment
- Help fill out forms
- Help you choose services
- Explain letters and agreements
- Check in after services start
- Find aged care services near you

We can also help you find other support, like:

- Health services
- Mental health support
- Housing help
- Community groups
- Drug and alcohol support

How do I refer myself or someone?

Call or email us and we will help with the next steps.

Who is this program for?

This program is for older people who:

- Do not have a carer
- Do not have someone they trust to help
- Can get government funded aged care

You may be able to get help if you:

- Find reading or writing hard
- Have trouble understanding information
- Feel worried or unsure about aged care
- Could be unsafe without support

Where is the program available?

We offer the care finder program in selected local areas.
