

Helping you communicate with confidence

Speech pathology

Our speech pathologists support children and adults who have trouble with talking, understanding others, swallowing, or social communication.

We work with you and your family to build skills for everyday life.

Assessments and therapies at a glance:

- Speech assessment and therapy
- Language assessment and therapy
- Swallowing assessment and therapy
- Mealtime management plans
- Supporting you if you need other ways to communicate
- Education for families and care teams

Support is suited to your needs, goals and daily life.

What you need to know:

- No GP referral needed
- Appointments tailored to you
- NDIS funded and private (fee for service) options
- Services available in many towns across NSW and North East Victoria
