

Westfund Care Coordination

Pilot Program

Welcome to the Westfund Care Coordination Pilot Program – supporting you to access the right services to improve your overall health and wellbeing.

How does the program work?

By participating in the Westfund Care Coordination Pilot Program, you will receive personalised support from a Marathon Health Care Coordinator. Your Care Coordinator will work closely with you to develop individualised health and wellbeing goals and work in partnership with you to achieve those goals.

The services our Care Coordinators provide will be tailored to your needs and may include:

- Working with you and your GP to better understand your health needs and plan your care
- Health coaching to build your understanding of your health and wellbeing needs, including support for lifestyle changes where needed
- Guidance to navigate the healthcare system to find the right care for you
- Support to access community-based services to minimise avoidable hospital admissions
- Help to access Government funding and assistance schemes suitable for your ongoing health needs
- Assistance to establish connections with local supports and networks to enable you to live well in your community.

What happens next?

Now that you have been referred to the program by Westfund, your Care Coordinator will be in touch within the next week to make a time to discuss your health and wellbeing and what you would like to achieve.

They will also work with you to make a plan for your time in the program, including setting up regular catch ups with you. The program will be tailored and responsive of your needs and preferences.

If your Westfund membership status changes after you have been referred to the program please let your Care Coordinator know so it can be determined if you are still eligible.

Marathon Health is the provider for the **Westfund Care Coordination Pilot Program**. We're a not-for-profit, registered charity with a vision of enabling communities to thrive through equitable health and wellbeing. We're passionate advocates for equal access to quality health services for people wherever they choose to live.
